Request for Applications RFA #GD0-QSI-50  
FY 2010 Quality Schools Incentive Grant**

**1 GENERAL INFORMATION**

**1.1 Introduction**

The Office of Public Charter School Financing and Support (OPCSFS), within the Office of the State Superintendent of Education (OSSE) seeks applications from each District of Columbia LEA public charter school for the *Quality Schools Incentive Grant*. The application should be developed to address a self-identified area of improvement for each of the public charter school campuses. Each campus application must address how the funds will be used to strengthen the identified area of improvement and lead to improved student academic achievement and/or other outcomes directly correlated with improved student academic achievement.

All public charter school campuses open during SY 2009-'10, which will also be open in SY 2010-'11 are eligible for funding and will be awarded a grant subject to satisfactory completion of an application and meeting the requirements expressed in the RFA.

**While schools are being offered flexibility in selecting projects for this grant, we expect schools to perform an honest appraisal of academic performance where the data indicates that a school needs to improve and target activities that are directly correlated to increasing student academic achievement. A Decision Matrix and DC-CAS AYP Target information to guide and assist your application completion will be distributed at the Pre-Application Conference. In addition, the Public Charter School Board may be included as a member of the review committee and/or consulted regarding application review.**

*The OPCSFS reserves the right to reject proposals and require schools to resubmit applications if the review team believes that a project is not appropriate, relevant, or feasible. As this will delay funding, please apply the appropriate attention and care to the preparation of the application, and selection of the project.*

Applications are due no later than **Monday, June 7, 2010 at 5:00 p.m.**

**1.2 Purpose of Grant Funds**

The purpose of the grant is to provide each public charter school campus with funds to improve the quality of education for its students by addressing an area of improvement.

Sample areas of improvement include, but are not limited to, improved supports for students with special needs; improved use of interim assessment; improved systems and tools for using data to inform decision-making and instruction; targeted professional development; improved efforts to educate students at risk; and/or developing a clearly aligned strategic action plan among management and the governing board.

**1.3 Eligibility**

All District of Columbia public charter schools and campuses are eligible to apply for the Quality Schools Incentive Grant. A single LEA must submit a separate application for each campus.

**Please note that new campuses opening for the next school year (2010-2011) are not eligible for this grant. New campuses opening in 2010-2011 may be eligible for the upcoming Replication and Growth grant fund.**

#### **1.4 Pre-Application Conference**

We strongly suggest LEA representation at a two hour Pre-Application Conference. It will be held on **Friday, May 14, 2010 at 2:00 p.m.**, 441 4<sup>th</sup> Street NW, 11<sup>th</sup> Floor, Room 1107, Washington, DC 20001.

#### **1.5 Source of Grant Funding**

The United States Congress appropriates funds to the Office of the State Superintendent of Education to provide sub-grants to eligible District of Columbia public charter schools. While this grant will be treated as an entitlement an application must be complete and satisfactorily reviewed. At that point a campus will then become eligible to receive funds.

#### **1.6 Grant Award**

Grant award payments will be made in accordance with the approved grant application, accompanying budget, and budget narrative for the project or service. A final accounting for the entire project shall be submitted to the Office of the State Superintendent of Education no later than ninety (90) days after either the final expenditure of grant funds or by the end of the grant period, whichever comes first.

#### **1.7 Funds Available and Funding Period**

A total of **\$50,000** in grant funds will be available for each public charter school campus (**See List of Eligible Public Charter School Campuses “Attachment A”**) that submits a qualified proposal. The sub-grant is offered for activities from date of award through June 30, 2011. If the public charter school successfully meets the performance objectives, the Office of Public Charter School Financing and Support may extend the funding period to finalize data collection or assessment or for the purpose of grant close out.
